

GPSBase Manual

This is a dummy version only.

Released PDF:

The latest completed and published PDF version is part of the latest released GPSBase version.

Trimble Terrasat employees can also find it on our Share Point server in the GNSS Infrastructure Software / Documentation section.

Coming release:

Trimble Terrasat employees can find the work in progress for the coming release on the Share Point server as Word .doc files.

Go to: GNSS Infrastructure Software / Documentation / Current Infrastructure Manuals / <Product Coming Version> /

There you will also find the matching Word templates. Use them to improve the document layout.

Note: The Word documents will be uploaded only once in a while and may not reflect the current state.

These documents are strictly confidential and not for external use.
